

# Action Pistol Group's Social Distancing Procedures

(Ver4)

## General Guidelines

1. **Do not shake hands or touch another person. Remain at least 6 feet away from all other people.** (Exception: To prevent an unsafe action by a shooter)
2. Shooters are encouraged to wear **face masks** for the protection of themselves and others. **If a shooter chooses not to wear a mask, they assume an extra level of responsibility to keep distance from others.**
3. For the health of everyone: **Any person who is experiencing symptoms of illness should not attend the match. We will refund you. Leave the range immediately if symptoms manifest during the match.**
4. Only one person may be at a safety table at a time.
5. Only one squad is allowed inside a shooter's shelter. **Newly arriving squads:** Exit the shelter when the established squad is packing to leave.
6. **Bring your own hand sanitizer and sanitizing wipes.**

## Registration and Match Construction

1. **ALL Shooters must register, pay, and squad themselves on Practiscore at least 12 hours before the start of the match.**  
*No walk-ups. No cash or checks. Touchless registration.*
2. We reserve the right to balance the squads to achieve proper match flow and proper SO/RO experience.
3. **Arrival time: One hour prior to the start of the match.**
4. **Everyone must help with set-up and tear-down. The match will start when stage construction is complete.**
5. **First thing upon arrival: Report to your first stage and help with set up.**  
After your stage is ready, check to see if other stages need help.

## Match Administration

1. When all stages are set up, report back to your first stage for the shooters meeting. The MD will have briefed the Lead SO/RO who will brief your squad with any important information.
2. **Tape:** *Revised procedure:* There will be an ample amount of tape in each bucket.
3. **Timers:** **If SO/ROs have personal timers, we ask that they use them.** If not, APG will provide them. SO/ROs should sanitize hands when trading timer duties. ***Bring hand sanitizer and sanitizing wipes!***
4. **Tablets:** Scorers should sanitize hands frequently. Ideally, just prior to taking over the tablet duty. The scorers will be the only people who touch the tablet. When scoring is complete, the scorer will state to the last shooter the points down and total time for IDPA. Hit factor and time for USPSA. Steel Challenge will state the total time. If there is no protest by the shooter, the scorer will approve. *Keep your distance!*
5. **Paint Cans:** For Steel Challenge: To save extra “can touching” and paint, repaint the targets after every 3<sup>rd</sup> shooter. Leave the cans out in sunlight between uses. It helps kill the virus.

## Match Teardown

1. **On the last stage:** *The first shooter* should be a person who is capable of driving with the wall trailer or the stands & props utility trailer. When *the first shooter* finishes shooting his stage, he should be dismissed to prepare for teardown. First shooters retrieve the trailers and wrecking bars to prepare for teardown.
2. *When the last shooter is finished, teardown begins.* **Lead SO/ROs please collect the tape, timer, tablet, and paint. Place them in your squad bucket, and return the bucket to the Match Director.**
3. **This has become a problem lately: *Follow the equipment back to the storage area and help with the final unloading and storing away. Many hands make light work!***

*Thank you for following these extra precautions and procedures which will allow us to keep enjoying the shooting sports we love during these challenging times. Action Pistol Group*
